

NOTE: *Insets of 'Coal Development Potential' and 'Coal Bed Methane Resource Potential' are semiquantitative and subjective evaluations of the potential of the coal development based on limited data and reflecting current technology and general economic factors. CAUTION SHOULD BE EMPLOYED IN THE USE OF THESE ANALYSES! The analyses are based on mainly geological criteria and do not take into account governmental restrictions or evaluate actual economic constraints to development now or in the future. To establish a 'potential map' for a unique set of criteria, please contact the AGS.
