

G.DOLBY

Released as part of Appendix 5 in AER/AGS Open File Report 2017-08

Text Keys
 *1 Absolute abundance (10mm=100 counts)
 *2 ALBO

Depth	Gamma Log (API)		Sonic Log (uS)		Samples Samples in Discipline(s) : Paly	SP	DC	PALYNOFACIES	Samples Samples in Discipline(s) : Paly	*1	Dinoflagellate Cysts		Spores And Pollen		Comments
	0	150	550	300		*1	Absolute abundance (10mm=100 counts)			Absolute abundance (10mm=100 counts)					
250m					Barren	Bisaccate pollen spp.			Barren	Schizophaucus parvus					
						Gymnosperms misc.				Balmula tripenta					
						Pteridophyte spores misc.				Circulodinium brevispinosum					
						Schizaceous spores				Nytericysta arachnion					
						Dinocysts Ceratoid				Nytericysta spp.					
						Dinocysts Simple, indet.				Odontochitina operculata					
						Dinocysts Peridinioid				Pseudoceratium interiorensense					
						Dinocysts unassigned				Pseudoceratium retusum					
										Vesperopsis spp.					
										Ellipsoidictyum imperfectum					
										Fromea amphora					
										Leptodinium cancellatum					
										Oligosphaeridium albertense					
										Oligosphaeridium complex					
										Oligosphaeridium pulcherrimum					
										Palaeoperidinium cretaceum					
										Subtilisphaera spp.					
										Cerebropollenites mesozoicus					
										Cicatricosisporites augustus					
										Cicatricosisporites australiensis					
										Cicatricosisporites hughesii					
										Cicatricosisporites spp.					
										Glassopolis spp.					
										Concavissimisporites irroratus					
										Concavissimisporites purverulentus					
										Concavissimisporites subgranulosus					
										Concavissimisporites trioreticulosus					
										Crybelosporites vectensis					
										Foraminisporis asymmetricus					
										Foraminisporis dailyi					
										Foraminisporis wonthaggiensis					
										Gleicheniidites spp.					
										Januaspurites spiniferus					
										Microreticulatisporites uniformis					
										Osmundacidites spp.					
										Perinopollenites elatoides					
										Pilosporites trichopapillosus					
										Taxodiaceapollenites hiatus					
										Triporeletes reticulatus					
										Cicatricosisporites hallei					
										Dictyotriletes granulatus					
										Retitriletes austroclavatidites					
										Retitriletes marginatus
